Series	"Listening to Canadians" is a public opinion survey, which was conducted three times a year. These surveys measure Canadians' views on public policy priorities and their assessment of how the Government of Canada serves Canadians in responding to those priorities. The surveys were conducted by Communications Canada.

Abstract

"Listening to Canadians" is a public opinion survey, which was conducted three times a year. These surveys measure Canadians' views on public policy priorities and their assessment of how the Government of Canada serves Canadians in responding to those priorities. The surveys were conducted by Communications Canada. The questions ask opinions on Government of Canada priorities, the internet, access to Government information and the ability to access Government services. The respondents were also asked questions so that they could be grouped according to geographic and social variables. Topics of interest include: Welfare; unemployment; the internet; the economy; technology; taxation; small businesses; serving Canadians with integrity; representing Canada internationally; quality of life; providing information; poverty; policies; pensions; obtaining Government services; National unity; managing the economy; leadership; immigration; health care; government websites; government spending; government plans; future of Canada; farming/ agriculture; environment; education; crime/ violence; Canadian dollar; building a stronger Canada; building a safer more secure Canada; armed Forces/ Military; Aboriginals/Native issues. Basic demographic variables are also included.
